My STORY WITH JIANGSU UNIVERSITY

I completed Cambridge in 2012 from St Joseph's college and attained 42 points, unfortunately I was not admitted for the course I wanted locally though I had applied to various institutions offering related courses. Initially University of Botswana provisionally admitted me for bachelor of Civil Engineering but later reduced the cut of points to lower than 22 points based on their admission point system, hence I did not qualify to be admitted. That did not discourage me, I've made a very appropriate decision to study overseas at Jiangsu University.

I am a confident person who has a good work ethic, good Chinese proficiency, interpersonal skills have the drive to succeed in any situation which may come and can work both as part of a team as well independently. I am able to communicate effectively with people and able to effectively adapt to different situations. Currently an exemplary model in China putting Botswana in the world map by winning golden awards in athletics in Jiangsu University and have demonstrated to be a hard working person who is mature, focused, trust worthy, honest and has both the capacity and vigor to lead other people in any given circumstances. This been attested by awards given to me during my four years studying in China by participating in various social and community activities. During these years business skills have been acquired and are daily challenged as an international entrepreneur.
